# CAL SINCE 1885

### DEPARTMENT OF FORESTRY AND FIRE PROTECTION

P.O. Box 944246 SACRAMENTO, CA 94244-2460 (916) 653-7772 Website: www.fire.ca.gov

Date: December 26, 2012

To: State Board of Fire Services

From: Scott Vail CICCS Task Force

## Subject/Agenda Action Item:

Include Type 3 Positions to the CICCS Position Guide

### **Recommended Actions:**

Add the following positions Type 3 to the CICCS Guide:

Logistics Section Chief Type 3 Finance Section Chief Type 3 Planning Section Chief Type 3 Operations Section Chief Type 3

Safety Officer Type 3

Public Information Officer Type 3

These positions will have requirements in them that are not in the FEMA minimum requirements to make them consistent with all the other ICS position requirements in the CICCS Position Guide.

### **Background Information:**

Homeland Security Presidential Directives (HSPD-5 and HSPD-8) require the development of Type 3 All-Hazard Incident Management Team's (AHIMT's) and the capability that the teams provide for the types of incidents that local government most encounters. Type 3 AHIMT's also provide the capacity to manage an incident until a higher qualified team arrives.

Type 3 AHIMT's are being developed in California with encouragement from FEMA, CalEMA and CalFire and with the support of local government. Currently there are teams in Contra Costa/Alameda, San Diego, Sacramento and Orange Counties -with others being initiated in 2013.

When CICCS was initiated and throughout the development of the 2010 CICCS Guide the ICS positions were based on the NWCG 310-1. The only Type 3 position that is currently recognized in the 310-1 and in CICCS is the Type 3 Incident Commander. Because NWCG recognizes a Type 3 Organization not teams no other Command and General Staff positions were developed. The development of Type 3 All-Hazard in California will require the development of Type 3 positions.

CONSERVATION IS WISE-KEEP CALIFORNIA GREEN AND GOLDEN

# **Analysis/Summary of Issue:**

The Command and General Staff position specific are being taught but there are no Type 3 positions in CICCS other than ICT3 in the current version of the CICCS Guide.

The Incident Commander Position requirements will be modified to allow members of the General staff to qualify as an ICT3. Other positions that could be used on a Type 3 team such as Resource Unit Leader or Division Supervisor do not need to be modified as there are no changes to the requirements of the job in a Type 3 team.

The 2010 CICCS Guide is being revised in 2013 and this is a good time to incorporate these positions into our documents.

Please read the attached documents entitled Type 3 Positions 12-11-12 to see the draft versions of the Type 3 Positions and Position Specific Program Guidelines November 2012 to review FEMA Guidelines.
